### SID ROSS LIKELY TO STAY CLOSED

**ACTUAL COST  
MOVING COAL  
SET AT \$7.22**

### Sid Ross Injured as Plane Crashes; Passenger Killed

### 6 More Cases In Alberta

**Commissioner Oliver Disagrees With Rail Board, Says Cost \$6.50**

**SAYS FINDING IN COAL RATE DEADENS HOPE**

**Concrete Step to Outlaw War Taken at Meet**

**EDMONTON BOY MIRACULOUSLY ESCAPES DEATH**

**IOWA'S OWN**

**Two of Those Reported To-day Have Developed In Edmonton**

TORONTO, Sept. 14.—Commissioner Oliver, in his report to the Board of Railway Commissioners, finding the actual cost of moving Alberta coal to Ontario to be \$7.22 per ton, Mr. Thomas Foster, Toronto, today said:

"It is too high. We cannot recall it at a reasonable rate as that figure under the government subsidies, the business, and I think they should."

The fact created tremendous interest in the development of the movement to outlaw war.

Machine Nose Dived When Only 300 Feet in Air Owing to Gas Leak

Edmonton, Sept. 14.—A young man, the son of a "Holly" W. Ross, 9907, 100th street, had a miraculous escape from death when an airplane he was piloting nose-dived 300 feet on to the grounds of the Midway Country Club, Los Angeles.

Public opinion in Edmonton will not open on Monday next if the board of health Thursday afternoon again the commission of Dr. H. H. White, local health officer, as expressed to The Bulletin on day.

OTTAWA, Sept. 14.—The Board of Railway Commissioners, in a majority report made public today, finds the cost of moving Alberta coal to Ontario to be \$7.22 per ton. The inclusive cost of transportation, covering overhead and superintendence, is set at \$10.07 per ton. The inclusive cost, plus the element of profit, is found to be \$12.20 per ton.

Big Drumheller Operator Surprised and Dissatisfied at Board Report

CALGARY, Sept. 14.—"The finding of the commission at once kills all hope of sending Alberta coal to the Ontario market," said Jesse George, Drumheller coal operator over the long distance telephone Wednesday morning.

According to reports reaching the city, the plane was piloted by a young man, the son of a "Holly" W. Ross, 9907, 100th street, had a miraculous escape from death when an airplane he was piloting nose-dived 300 feet on to the grounds of the Midway Country Club, Los Angeles.

After Olson of George, Inc. in the previous season's legislation in the house of commons, it was taken at Washington as made in the fact that the house would direct with that.

In my opinion it would be impossible for the board of health to resist their order of September 1, to say as it comes from the people of the public schools. Whether it would be wise to lift the ban on high school children or not is debatable. It is a health officer's duty to protect the public health.

Chief Commissioner McKenna said that the majority opinion, Commissioner Frank Oliver, third member of the board which conducted the inquiry, agrees with the majority report.

Mr. George said that the \$12.20 per ton mentioned as the inclusive cost, plus the element of profit, would have to be added to the actual cost of the coal which at \$7.22 per ton would bring the figure up to \$19.42 per ton.

It was stated that the fact that the plane was piloted by a young man, the son of a "Holly" W. Ross, 9907, 100th street, had a miraculous escape from death when an airplane he was piloting nose-dived 300 feet on to the grounds of the Midway Country Club, Los Angeles.

In my opinion it would be impossible for the board of health to resist their order of September 1, to say as it comes from the people of the public schools. Whether it would be wise to lift the ban on high school children or not is debatable. It is a health officer's duty to protect the public health.

Miss Kitty Banks, former actress and model for Howard Chandler Christy, went to Albuquerque, N.M., several years ago. New York newspapers once reported her dead, but now she appears to be very much alive as winner of a state beauty contest.

### WORLD FLIERS PREPARE FOR PACIFIC HOP

TOKIO, Sept. 14.—Edward P. Selzer and William S. Brock, pilots of the round-the-world manplane Pride of Detroit, today announced they expected to leave for New York for Midway Islands, nearly halfway across the Pacific, Friday.

### Around the Town

By W. A. de GRAYES

We paid a visit to the sweetest place in Edmonton yesterday. Several in more ways than one, too. It was a factory, but you wouldn't call it from the outside, only by the signs. There was a house, a beautiful series of lawns, and plants and flowers and shrubs of all descriptions. It looked like a well kept public park or somebody's prize garden.

And inside it was just as surprising. Plenty of sun and light. Huge spacious rooms. Everything bright and airy and clean. There you could literally cut off the nose with a knife. It was as if you were in a new world. A world that was as bright as the sun and as clean as the air.

White Cheerfully; Write Briefly; Write Nothing You'd Be Ashamed to Have Read Aloud; If Your Handwriting is Poor Use A Typewriter, And You Won't Be Sorry

The complaint is frequently made that the art of letter writing is a lost art. It is not, however, a lost art, but a neglected one.

Letter-writing today, however, has sadly fallen from its high estate. From being a great accomplishment, it has passed into a drudgery that we hate more to perform for us if we can.

This is a pity for letter-writing is still an art worth following, and none of us is so dull as not to recognize the charm of a beautiful and well-written letter.

The first is the unappealing badness of not answering questions. This is a fault which the courteous to read over the letter which she is answering, or even to remember what it was about.

Another pit of course that the letter-writer may well take to heart is never to write a letter that has been written for twenty-four hours. You can put it off for a week, but not for a month.

Equally dangerous is the tendency to be sentimental in letters. Nearly every woman is full of tenderness, poetry and sentimentality.

Now are women alone in this tendency to slip over in letters, as women are alone in this tendency to slip over in letters, as women are alone in this tendency to slip over in letters.

If the art of letter-writing should, indeed, become a lost art, there is one thing that would be a loss to it, and that is the art of letter-writing.

It is an indication of the letter-writer's attitude that the girl who writes them does not mean them and that the letter-writer's attitude is that the girl who writes them does not mean them.

Finally, don't write depressing letters. Don't take the lamentations of Jeremiah as a model for your communications to your family and friends.

In a word, write cheerfully, write briefly, write honestly. Never let a letter be a letter of which you would be ashamed to have read aloud.

## COAL RATES

Continued from Page Eight

The government was only in receipt of the report and had had as yet no time to give the matter consideration. The findings of the inquiry were published in the pages of the Canadian National.

Not a judgment. It states that after all consideration and study of the evidence and exhibits filed before the board, figures were arrived at which formed the basis of the board's report.

The reference to the board was made in the government's statement of the findings of the inquiry submitted to the board on October 12.

On the one hand, the board found that the coal rates were too high, and on the other hand, it found that the coal rates were too low.

It is in the question of the coal rates that the government is at present engaged in a struggle with the coal owners.

# North West Biscuit Company To Increase Staff One-Third; Remodelling of Mill Planned

Last Four Weeks' Production Largest in History of Edmonton Concern; At Present 215 Persons Are Employed With Payroll of \$180,000; Improvements to be Under Way by End of Year

With the last four weeks marking the biggest production and sales period in the history of the North West Biscuit Company Ltd., of Edmonton, and arrangements for the manufacturing of all sorts of biscuits to be made at the local plant about completed, plans are being made for a big addition to the Edmonton organization.

Under the new plan an increase of one third in the present staff will be necessitated, while additional warehouse space will have to be built. It is expected that the new arrangements will be under way by the first of the year, and plans are being laid for the future.

At the present time the company has 215 employees, and the payroll for the last four weeks was \$180,000. The company is now in the process of remodelling the mill, and plans are being made for a big addition to the Edmonton organization.
